Blue Ascend Hydraulics is a part of ASC Industry Group and is one of the biggest players in the field with its production facility located in Germany and Turkey with a total of 91.000 m² area and 40.000 m² production area.

The production is focused on hydraulic gear pumps, motors and flow dividers. Both aluminium and cast iron body options are available with various shaft and flange combinations. Blue Ascend Hydraulics is serving and supplying its product to various sectors such as mobile, industry and agriculture.

Quality is a must when dealing with these sectors and the pump or motor has to complete its task flawlessly 24/7 even under extreme conditions. In order to serve the hydraulic sector properly, Blue Ascend Hydraulics R&D team has developed a product with a different production mentality that assures a longer lifetime above the standards, higher volumetric and mechanical efficiencies.

Blue Ascend Hydraulics does all the the production processes in-house such as gear production, body production, heat treatment and production of other parts used in the final product. By doing this they gain complete control over the quality and assures stability.

One of the advantages Blue Ascend Hydraulics has that puts their product in the front line is their short production and delivery times. This is assured by the modern machine parkour and advanced semi-finished product stock management.

A complete quality control management system is present at Blue Ascend Hydraulics that gives them complete traceability from the first stage such as used raw material, production process, and final test reports.

Our service network is expanding. In order to reach you faster deliveries from our factory in Germany is available for our European customers.
